Press Release: January 29, 2014

Portland Animal Shelter

We'd like to make clear that the Town of Portland has been a strong partner for us in caring for the animals throughout our region. The current facility presents long-term challenges associated with its age and the era in which it was designed, but the Town of Portland has been a good host and partner with the Middletown Police Department's Animal Control Division.

The Middletown Police Department is pleased with the mutually-beneficial relationship that we have developed with the Town of Portland over the years. We have provided assistance to each other through the use of our City's dispatch center and prisoner facilities as well as the animal control facility. Being able to work hand-in-hand has improved the quality of service to the residents of both communities.

Lieutenant Heather Desmond
Support Services Supervisor
Middletown Police Department
